

sex trafficking & exploitation

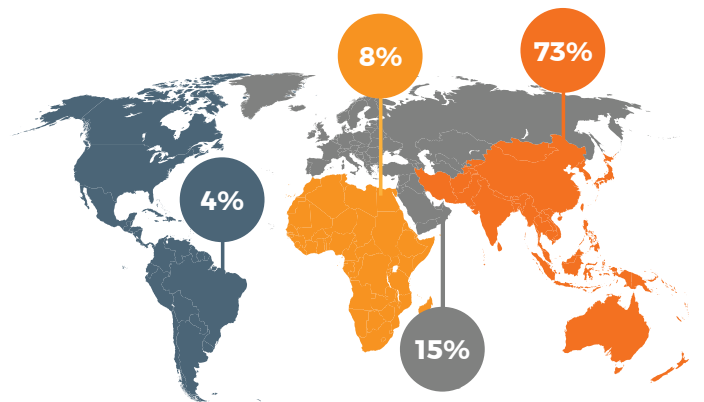

BIG-PICTURE STATS

Statistics can be helpful, but in the world of child sex trafficking, where there is a universal effort to hide in the dark, statistics vary wildly. These numbers serve to help quantify this reality and help us understand the gravity of this issue.

 **\$99 BILLION
GENERATED**
by commercial sex trafficking every year
This is more than 60% of the \$150 Billion
generated by all human trafficking combined

 **99%**
OF SEX-TRAFFICKED
victims are female

7 OUT OF EVERY 10 VICTIMS of sex trafficking are in Asia and the Pacific

AT LEAST 1 MILLION CHILDREN are victims of sexual exploitation

The ILO also states in their report, "Child victims of commercial sexual exploitation are particularly difficult to detect...The true figure is likely far higher than the current estimates."

Information gathered from ILO Global Estimates on Modern Slavery 2017 & 2014
